Board of Supervisors Approve Use Permit to USA Baseball and the City of Chino Hills

USA Baseball and the City of Chino Hills requested exclusive use of the three softball diamonds at Prado Regional Park from February 16, 2008 through June 14, 2008 for activities related to Little League baseball games and practices.

Supervisor Gary Ovitt spoke in favor of the Board item: "The popularity of baseball league activities has resulted in a need for additional ball fields and the park's three softball diamonds can accommodate this need." The Board item passed unanimously.

Usage of the softball diamond will have minimal effect on the general public utilizing other areas of the park. Pursuant to the Permit, the City of Chino Hills will reimburse the County Regional Parks Department for field use and storage fees. USA Baseball will perform regular maintenance.

Ovitt went on to say, "This is a win - win for everyone involved. Additional facilities are badly needed and the County can provide them. Most of all the kids benefit throughout the Spring Little League baseball season."
